THE WEATHER

Changeable as the wind has been Alberta's weather for the past year or so, and this fall has been no exception. We've had nice days and miserable days, and if we report a fine spell it invariably turns cold. So all we had better say is that the snow is gradually going, the odd farmer is threshing a little feed and the rest of them are keeping their fingers crossed in the hopes that there will still be a period of Indian summer before winter sets in.

BIRTHS

Dorn at the Didsbury hospital to Mr. and Mrs. M. Carberry on Wednesday, October 31, a girl.

Timber Wolf Shot In Elkton District

One of the largest timber wolves ever to be shot in this area was killed Sunday about eight miles south of Sundre.

R.A. Roberts of Elkton fired the shot that ended the life of the animal that is believed to be partly responsible for the loss of chickens, young pigs and even some young stock in the Elkton district.

When first sighted, the beast was in the pig pen of an Elkton district farmer who sighted his rifle and shot it through the back leg. The farmer trailed the beast to the trail and after about an 11 mile trek the animal was sighted. It started to run and was hit in the front leg by another shot. After running for a considerable distance it stopped in its tracks, sat down and prepared to battle its tormentors. It was finally killed after seven shots were fired.

The body of the beast was brought to Olds on Monday in the back of a truck and aroused considerable interest. The weight of the animal was estimated at between 150 and 175 pounds. The footprint in the snow measured about five inches long by three inches wide.

Stan Morrison of Elkton collected bounty this week on another wolf killed in the Elkton vicinity last Friday. —Olds Gazette.

ON CIVIL DEFENCE

(By Mrs. H. Lynch-Staunton)

ARTICLE V

Approved fire extinguishers can be useful in Civil Defence. They must be checked at recommended intervals and refilled after use, or in some cases annually.

The plain water extinguisher and the soda acid type do not cause dangerous gases to be produced, and can be used against incendiary bombs and the resulting fires in the same way as the stirrup hand pump. However, these extinguishers have certain disadvantages for Civil Defence work, namely:

1. They are usually of 2½ gallon capacity, and a single one of that size might not be capable of dealing with both the bomb and the resulting fires.

2. If the bomb had landed in the attic, the weight and size of the extinguisher might make it difficult for the fire-fighter to enter the attic by means of a ladder.

3. If the attic or room were filled with smoke the fire-fighter would want to attach the fire-fighter's mask and knoxes. In this position it would be difficult or impossible to operate the extinguisher.

4. The cost of the extinguisher is higher than that of the stirrup hand pump.

For these reasons, although the plain water and the soda acid extinguishers are useful when chasing new appliances for dealing with incendiary bombs and the resulting fires, the stirrup hand pump is recommended.

STORING THE FARM TRACTOR

A little care in preparing the farm tractor for winter storage will do much to prolong its life. The first thing is to clean it thoroughly of all grease, dirt and dust. Next, drain the crank case, flush and refill with clean oil, and operate the engine for a few minutes. Drain the radiator and flush the cooling system with a scale removing solution. A solution for this purpose can often be purchased or made at home with washing soda and soft water. If washing soda is used, add three pounds of washing soda to each seven gallons of water and operate the tractor with the shutters on the radiator partially closed until the mixture steams. The solution is then drained from the radiator, and the whole system flushed out with clean soft water. Leave the drain cocks open.

Next remove the spark plugs and pour a cupful of oil into each cylinder turn the engine over at least two revolutions by hand and then replace the spark plugs. Give the tractor a complete and thorough grease job and block the engine up to take weight off the tires. Store in a protected place, or at least cover the tires. Use rust preventive grease or paint on any of the surfaces that have been worn shiny.

Drain all fuel from the tractor—this includes fuel tank, fuel lines, sediment bowl and carburetor. Cover the exhaust pipe and breather

DO WE KNOW CANADA?

If we are going to build more real and worthy Canadianism in this country we must learn a great deal more about Canada.

There are plenty of powerful facts to strengthen our sense of Canadianism and to guarantee our future. We have very real, very important and some almost exclusive advantages over other countries in the matter of traditions, government, trade and geographical position.

Learning and recognizing the facts will help Canada survive the enormous cultural and economic pull from the United States. In the survival our schools, our universities and our national press play the decisive role. We can only learn about Canada from ourselves.

SANTA CLAUS ADORNS NEW CHRISTMAS SEALS

Christmas Seals for 1951 will be mailed November 10th to the 250,000 homes in Red Deer and Central Alberta. It was announced today by D.W. Robertson, chairman of the Red Deer Rotary Club Christmas Seal Committee. A jolly apple-cheeked Santa Claus features the new Christmas Seal. This is the 25th year that Seals have been sold by Tuberculosis Associations.

Mr. Robertson said that the 1951 objective for Red Deer and Central Alberta would be \$14,500 for the 1951 seal sale. This will help to continue mass surveys with the Alberta Tuberculosis Association's mobile X-ray installations for hospitals carry on the Association's programs of rehabilitation, health education, nursing and welfare services.

Provincial objective is \$185,000. \$80,000 more than was raised in 1950. C. Robert Dickey, general secretary of the Association, said that all operating costs are increased and that the additional money will all be needed, especially if more X-ray equipment is to be provided for use of Alberta people.

ALBERTA HOG NUMBERS

Alberta's hog population has increased by more than 25 per cent in the past year, standing at 1,028,000 on June 1st against 809,700 a year earlier. These figures are taken from a report of the dominion bureau of statistics.

While hog numbers are up substantially, this year's figures are well below half of the peak of 2,338,000 reached in 1917.

Well over two-thirds of Alberta's hogs are produced in the northern half of the province. The June 1st survey shows that about 730,000 hogs were north of a line running east from Red Deer, while only 308,000 were south of this line.

COLLEGE ATTENDANCE DROPS

There may be trouble ahead for Canada's rapidly expanding industrial economy, if the dip in this year's university enrollments is a trend sign.

Unlike the rising figures for population, national output and national income, enrollments are down about 3,000 at universities this year across the country.

Educators see this as a dangerous omen for the years to come. When more and more qualified graduates will be needed by industry, business and government than ever before. Already the search for qualified scientists, doctors, engineers and university trained technicians has been carried outside Canada. There just aren't enough graduates by our universities.

Pioneers To Complete Early Family History

Closely linked with the history of southern Alberta are the names of a host of pioneer families that are gradually fading into oblivion along with the losses and changes.

These families settled in the West long before railroads made their appearance, when there were as many Indians as there were settlers and none had an inkling of the wealth of natural resources that lay hidden under the rolling prairie. And their names have never been set down in official records.

It's quite likely that they never would have been, either. If the Southern Alberta Pioneer and Old Times Association at its annual meeting a year ago had not decided that something should be done before all chance of obtaining the old time records had disappeared.

It was with the idea of evolving a plan to collect this history up to and including the year 1890 that Douglas Hardwick, himself a pioneer, was persuaded to become president of the association for the present year.

With this major objective in mind, a committee was set up which developed a plan for gathering together this history.

The mechanics of this plan are simple: just one member of each family is to fill out a special questionnaire form and send it to the director of the nearest district. The aforementioned forms may be obtained at the larger post offices in Southern Alberta, local old-times' associations, or by writing any director.

But the problem of finding relatives and descendants of these pioneer families is the difficult part. Provisions have been made on the forms for additional names of families that have left the province, long, baggage and relatives, and deceased pioneers who left no descendants at all.

The form is primarily interested in all data prior to and including 1890 as pertaining to the "pioneer period." Those filling out forms are then invited to fill out the full names and the date of birth of the members of their family from the end of that period until the present day. This additional information will be attached as an addenda to the "Pioneer Records" for the use of those compiling the next or "Pioneer Son Period."

In an effort to gather the records of these pioneer families in Southern Alberta which district extends from Red Deer south to the U.S. border, a central research committee was formed by the Southern Alberta Pioneer and Old Times Association, under the chairmanship of Mr. Hardwick. Included in the committee are Miss Mary Pinkham, O.B.E., J.E.A., McLeod, K.C.; Alex McTavish; W.J. Wilde, and honorary secretary, Leishman McNeill.

They will be helped by a group of 22 well-known directors, each responsible for a district and its local organization. Mr. Hardwick wishes it made perfectly clear that the forms, when completed, should be sent to the director of the nearest district, not the nearest director.

The committee will endeavor to collect, index and tabulate an accurate tally of all who came to or were born in Southern Alberta prior to the end of 1890 and secure a complete list of the names and locations of all those surviving at that date, thus completing the "Pioneer Period" and leaving it so that others can carry on from there.

The history of each pioneer family will be woven, year by year, into the contemporary history of the country. When completed, it is hoped that copies will be placed in local museums, principal colleges and public libraries where they will be easily accessible for reference to present and future generations who wish to know the past connection of their families with the building of their country.

These histories and records will not be used for any commercial purposes whatever and if ever published will be available to all at cost.

The committee hopes that all will assist in this voluntary effort to save the fast-disappearing record of the past, and that no pioneer family of Southern Alberta will allow its name and history to be missed by failure to secure and send in one of the forms.

WESTCOTT NOTES

(Last Week)

A number of friends of Mrs. Clarence Reinhart very pleasantly surprised her last Thursday evening, the occasion being her birthday. The evening was enjoyed at cards, etc., and the guest of honor was the recipient of many lovely gifts. A delightful lunch was served with Mrs. Reinhart's daughter-in-law serving the delicious birthday cake, which she made herself.

Mrs. Clarence Reinhart's sister, Mrs. S. Patchell from B.C., is visiting here with the Reinhart family. Mr. Wilbert Cassie of Edmonton spent the week end at the Herbert Goetjen home and at the home of his parents, Mr. and Mrs. Ed Berstch at Elkton.

(This Week)

The Westcott teacher, Mrs. Allen Korschuh, and her pupils held a Halloween masquerade party at the school on Wednesday night and a large crowd in attendance had a very enjoyable evening of entertainment at games and dancing, and many wiled costumes added much to the fun of the evening. Prizes were awarded to those who were considered by the crowd to have the best costumes for the occasion. This proved quite a task to judge as a lot of time and effort had been spent in preparing some of the costumes. However, in the children's class Robert Wilschusen received first prize, dressed as Mortimer Snerd. Aileen Weidner won second prize, dressed as a Red Cross nurse. In the adult class Mr. Bill Bogner won first prize, dressed as Satan, and second prize went to Mr. Otto Folkmann as a Spanish Cavalier and to Mr. Linden Jacobson dressed in a Scottish costume.

Mr. Hubert Pakke of Big Prairie was an overnight guest on Saturday night at the Goetjen home.

Mrs. John Jacobson of Sundre was renewing acquaintances in the district over the week end.

The children of the Westcott School enjoyed the two day holiday last week while the teachers' convention was taking place in Calgary.

M.V.B.C. NEWS

Rev. and Mrs. Hoskins spent the weekend in Mr. Waldin's cottage near Banff. They enjoyed a much needed rest.

Stan and Keith Cox, Myrtle Plato, Margaret Dyck, Eunice Myers and John Weiss have joined the M.V.B.C. College family during the last week.

We are happy to have them, and it hasn't taken them long to adjust themselves to school life. It will take them a little longer, however, to make up lost time in studying.

Mr. Richardson was a week end visitor in Edmonton. He had the privilege of singing in the U.M. Church on Sunday. Rev. C.J. Hallman is pastor there.

Mr. and Mrs. John Wilson, along with several students, visited in Hoadley on Sunday. Mr. Wilson preached in the morning service. Mr. Charles Matson is the student pastor there.

Mr. Peter Waldin is doing a fine job with his Scout Troop. The boys and he enjoyed an outing on Saturday.

The Student Council entertained the young people of the United Missionary Church at the Get-Aquainted Party on Friday evening. Everyone reported an enjoyable time. Mr. Charles Matson is the Student Council President.

We are happy to have Mr. and Mrs. Val Cloud as guests for meals at the College during the evangelistic campaign of the next two weeks and we hope that all who read this will avail themselves of the opportunity of hearing these who have given much time to Youth for Christ work.

Willard Stauffer is doing double duty on the mumps invasion in their home. He not only had them himself, and consequently stayed at home the allotted time, but now he has taken over the management of the farm while his father recuperates. Well, Willard, it may be an obstacle race, but you'll make it! We hope you will soon be back with the fellows, for we miss you.

CHRISTIAN SCIENCE

The way out of the pitfalls of mortal existence will be made plain in Christian Science churches Sunday. The Lesson-Sermon will deal with the subject "Adam and Fallen Man," and will be presented in passages like these: "There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit." (Romans 8: 1) "Jesus is the name of the man who, more than all other men, has presented Christ, the true idea of God, healing the sick and the sinning and destroying the power of death." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 473).

WHO PAYS THE PENSIONS?

The bad news is beginning to come from Ottawa about who will pay for the new old age pensions. According to the Financial Post here's the plan: Your personal income tax is due to jump two per cent effective July 1, 1952. Corporation taxes will likewise be raised two per cent on the same date.

The remainder of the required contribution of \$250-\$290 millions (estimated initial cost of the \$40 at 70 pensions) will come from earmarking for pension usage, the two per cent boost in sales tax put into effect last April.
